Jessica Craig-Martin: Privilege

Jessica Craig-Martin has the perfect cover. While undertaking her job as a party photographer for glossy magazines including *Vogue*, she takes clandestine shots from decidedly unglamorous angles. Skewed and out of context, exquisitely manicured hands become grasping claws, delicate canapés become surreal, out-of-place objets d'art, and lavish bejeweled shoes are caught poking out from underneath toilet cubicles. These images are taken from her new book *Privilege*, which is published this month by Schaden.
